2.3.1: Student centric methods, such as experiential learning, participative learning and problem solving methodologies are used for enhancing learning experiences and teachers use ICT- enabled tools including online resources for effective teaching and learning process.

1. Experimental Learning:

The college conducted experiential learning through industrial visits, field trips, study tours, creation of wall magazines etc. This activity broadens the knowledge and wisdom of the students. Also practical and theoretical knowledge is acquired. Assigning practical tasks such as creating posters, models and projects allows students to develop their creativity. Department of Geography organizes field visits to geographical locations and industrial sites. In these field visits, students observe the sites. Collect samples and conduct further studies and understand the ecological importance of different biological communities. The History Department visited historical places like Sant Gorobakaka, Ramalinga Appa Lamture Museum, Raigad Fort etc. and asked the students to prepare a report of their visit which would give them the experience of observing human history. Marathi, Hindi, English and Urdu departments share their experience of novels, plays, short stories and poetry through screening of video clips etc. On behalf of the Department of Political Science, organized Voter's Day, organized voter awareness etc., organized Constitution Day on behalf of the Department of Public Administration. The Economics Department organizes lectures on how the Bank's business operations are conducted. Sports Department organizes various types of sports competitions.
