2.3.1: Student centric methods, such as experiential learning, participative learning and problem solving methodologies are used for enhancing learning experiences and teachers use ICT- enabled tools including online resources for effective teaching and learning process.

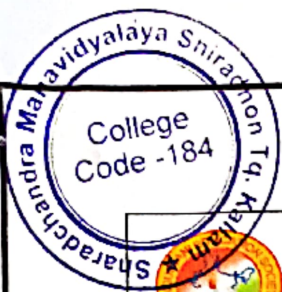

2. Participative Learning

Participatory learning plays an important role in the actual learning process of our college. Teachers motivate students to participate in various activities like literary and social science associations, class seminars, group discussions, wallpaper publishing, study tours, debates, elocution competitions, essay writing competitions, projects, games, quizzes etc. Students actively participate in every activity. And every departmental program celebrates Environment Awareness Day, Geography Day, Sports Day, Hindi Day, National Marathi Language Day etc. NSS, Sports and Cultural Department organizes various participatory activities encouraging students to participate in tree plantation, campus cleanliness, voter awareness, environment conservation, AIDS awareness etc. Skill based certificate courses enable students to participate.
