2.3.1: Student centric methods, such as experiential learning, participative learning and problem solving methodologies are used for enhancing learning experiences and teachers use ICT- enabled tools including online resources for effective teaching and learning process.

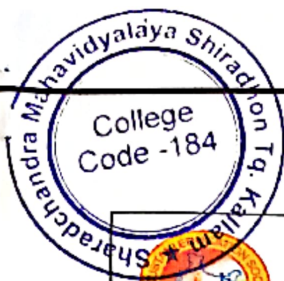

3. Problem Solving

Group discussion, role play, student-teacher interaction, parent meeting etc. are useful in solving related problems. The college organizes expert lectures which are helpful in solving related problems. Departments of Geography, Sociology and Economics have interacted with students to solve problems like water problems, farmer suicides in Maharashtra, problems in Indian tax structure. The NSS department has adopted Mauje Pimpri village for three years and organizes regular camps there. Also, many social awareness programs are organized like Gram Swachhta Bharat Abhiyan, plastic free zone, tree plantation, disease diagnosis camp, animal disease diagnosis, environment conservation etc. Student-centered approaches are seen very positively in student outcomes and behavior.
