7.1.2 Disabled-Friendly and Barrier Free Environment

The main objectives of the Persons with Disabilities (Equal Opportunities, Protection of Rights and Full Participation) Act, 1996 enacted by the Government of India on January 1, 1996 are to create barrier free environment for persons with disabilities and to make special provisions for the integration of persons with disabilities into the social mainstream.

In the higher education sector, the Ministry of Social Justice & Empowerment and University Grants Commission support all Universities to involve and empower differently-abled persons in special education activities. Barrier Free Environment is one which enables people with disabilities to move about safely and freely and to use the facilities within the built environment. The goal of barrier free design is to provide an environment.

To build a barrier free environment for disabled and physically challenged persons in the form of ramps, and provision for lifts in future. Learners with disabilities need to be adequately and appropriately supported.
