Achievements related to Green Campus initiatives

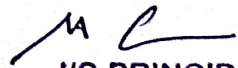

(2018-2019 to 2022-2023)

The following achievements are identified as a result of green campus initiatives in the campus:

1. Total 69 % area of the campus is covered with Greenery.
2. Using maximum of sunlight due to surrounding natural benefits.
3. The underground water body level is increased due to rain water harvesting in our campus.
4. Clean water to staff and students is supplied with RO system.
5. Periodical floral and faunal diversity is experienced by everyone.
6. It helps to control and eradication of air pollution.
7. Waste disposal system is effectively working.
8. Carbon foot print is decreased significantly.
9. Importantly, total Green House Gas emissions emitted due to various activities.
10. Green Club Activities are appreciated.
11. Tree Plantation is widely spread as a lifelong endeavor among students and villagers.
12. Most importantly Reduce, Reuse and Recycle system activated naturally.
